AERIAL TRUSS RIG

Our truss rig can be set up to suit the majority of needs.

From 2m high, 2m wide, up to 6m high and 10m wide. (Restrictions do apply with wide set ups)

The area required for the outside, and front/rear of the rig are below.
 We can now go over 6m if required, but weight restrictions may apply

PRICING STRUCTURE:

- Price is determined by the quantity of pieces, which takes into consideration transport, set up/pack up times, and resources required.
- Price is for a **24-hour period**; however, we will work together and try and accommodate your needs, E.G. we may set up a day or so beforehand and pick up a day or so later if access or the situation makes it easier. You will only be charged for the one period if it is only 1 show.
- Each configuration comes standard with:
 - Bases and supports for the legs.
 - All bolts and accessories need for the rig.
 - 1 pulley & rope system for rigging, including 1 x carabiner.
- Set up includes reasonable access to the site for transport and ease/access.
- Delays/hold ups of any kind will incur extra charges.

**Note*

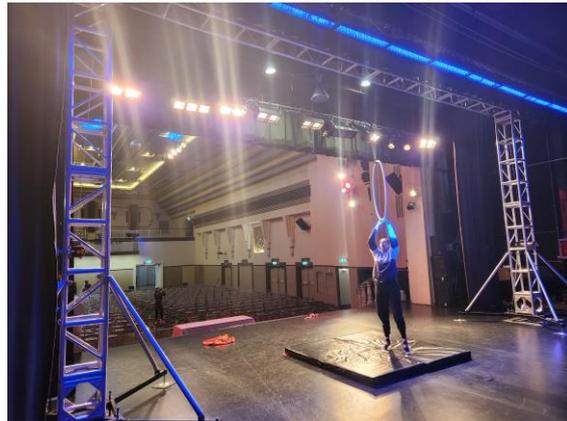

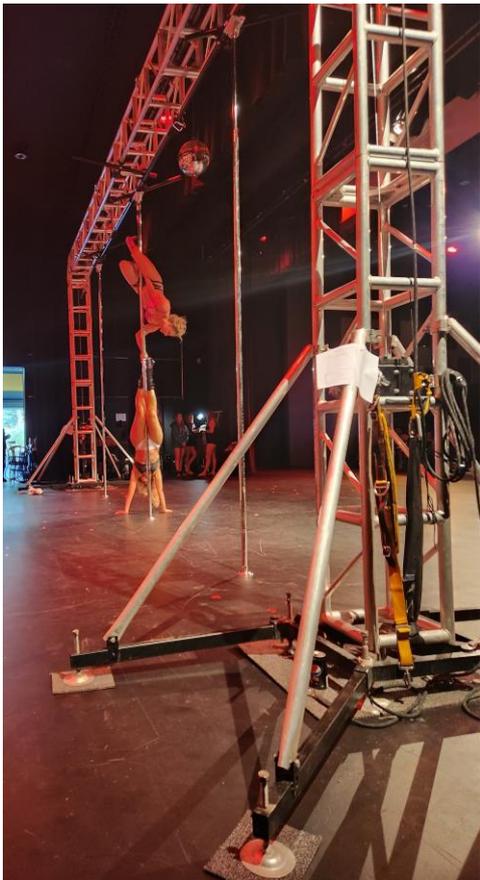

- Set up for Pole Dancing incurs extra charges.

Cost of hire including delivery, set up, and pick up (requires 2 people or more)

Any width and up to 4m high **\$900 per period**

Any width and over 4m high **\$1150 per period**

We have the ability to fit 3 x poles at one time, dependant on the venue allowing to drill holes for the pole base pins.

Extras / Accessories:

- Additional hang point / rope & pulley kit \$40
- Labour Hire / Onsite Rigger \$120 per hour
- Travel excess – distances over 60k's \$1 per kilometre

Apparatus

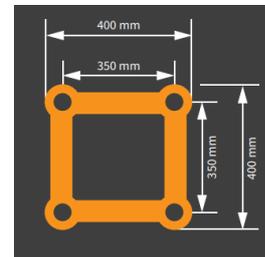

- Lyra hire (depending on availability) \$60
- Silk hire (depending on availability) \$60
- Rigging and other equipment POA
